2 JAN 1968

ARM-12.1  
(memo for record)

MEMORANDUM FOR THE RECORD

SUBJECT: Discussion with FI/D on OEL R&D on  
28 December 1967

1. At OEL's suggestion a briefing was given to [redacted] Deputy Chief, FI/D; and [redacted] relative to the effect of FY 1968 and 1969 budget cuts on the OEL ELINT R&D program. A review of all R&D items to be undertaken was provided but emphasis was given to changes required by the budget cuts.

2. [redacted] expressed appreciation for the briefing but indicated it would be more desirable if a project by project listing could be provided to FI/D so that he could review these items in his office and with other DD/P Divisions in order to provide meaningful feedback to OEL on what should and should not be undertaken. [redacted] indicated that in his opinion supplying of a list such as is now given to TSD and FI/D by ORD/DD/S&T would be a suitable vehicle for receiving DD/P comments on the ELINT development program.

3. I indicated my desire to supply FI/D and other components of DD/P with any information they needed or wanted about items under development or planned. I suggested that a detailed briefing on (a) the technical characteristics of specific equipment now coming off the line, and (b) specifications for equipment under development, if provided to FI/D and appropriate Division personnel might provide a more meaningful basis for DD/P comments.

4. [redacted] indicated no approval or disapproval of individual items which were presented.
